

A Case Study

“The improvement since changing from Sage to IRIS Payroll Professional has been substantial. It is easier to use and there is greater functionality. The quality of output is better and quicker. Access to information onscreen or by report is good. Support has been excellent & quick (but used far less), which is vital as payroll is a time critical service. There is less related manual work involved, resulting in greater efficiency. Overall, we are able to provide better service in less time and with fewer problems.”

Have you recommended IRIS Payroll Professional to others: Yes.

WHY DID YOU CHOOSE IRIS PAYROLL PROFESSIONAL?

Our previous supplier was taken over by Sage, the product discontinued and its users transferred to Sage Payroll. The Sage product was inadequate for us as a bureau system. Processing took significantly longer, inadequate built in controls resulted in processing errors and irrecoverable data corruptions occurred. After a review of the market and talking to other bureau providers, we chose IRIS Payroll Professional..

WHAT ARE THE MAIN BENEFITS YOU HAVE REALISED FROM USING STAR PAYROLL PROFESSIONAL?

- Specifically designed as a bureau system.
- Online help & telephone support are excellent.
- Easy access to prior periods and years.
- Flexible report generator, including easy export facility and selection of bank/BACS reports. Clients very impressed with emailed reports.
- Statutory forms now on laser printout or filed on-line. Speed and quality of printed output now excellent.
- Good net to gross facility.
- Being able to offer ePayslips.

SUMMARY

Time saving: Substantial time savings over both of the previous products.

Improved service: Better quality output & easy access to information for client queries.

Implementation time: IRIS Payroll Professional has a quick & easy conversion routine from Sage that allows you to convert each client when you want to. This means that we could effect the changeover at a pace that suited us (including year to date figures).
